

We Would Like to THANK the Readers of Lafourche Parish for Voting Us  
2010 READER'S CHOICE AWARD for HOSPICE

Oldest Hospice Agency in Southeast Louisiana established in 1987

WE PLEDGE

Aggressive palliative care designed especially for you and your family. We will focus on intensive treatment to ensure "quality of life" by preventing and relieving suffering from anxiety, pain and medical symptoms. We will prepare the patient and family for what lies ahead by addressing grief and loss associated with the patient's decline, deterioration, and death.

Our Hospice Medical Directors will "work with your family physician" toward the prevention and relief of suffering.

Hospice is NOT:  
Euthanasia

In fact a recent study showed that palliative care instead of curative treatment could actually extend life in late stages of incurable disease.\*
